Brief Description of Arguments to be Presented:

In the most recent office action dated 9/23/03, the Examiner stated "it is noted that the features upon which applicant relies are not recited in the rejected claims --- Modlin does not suggest partitioning." Applicants thought the claims recited partitioning. I think a telephone interview was conducted on the above-identified application on interview may clear this up.

NOTE:

This form should be completed by applicant and submitted to the examiner in advance of the interview (see MPEP § 713.01).

This application will not be delayed from issue because of applicant's failure to submit a written record of this interview. Therefore, applicant is advised to file a statement of the substance of this interview (37 CFR 1.133(b)) as soon as possible.
